COURIER

SECRET

FOIA-836

Chief, FBI

6 November 1958

Chief of Base, Pullach

Operational

K. 15

Walter Kopp and Goldschmidt

1. Negative traces of Walter Kopp were forwarded in SPILL-4353.
2. We have no further traces of Goldschmidt, but FOIA-7024 might also be of interest particularly in view of the statement that in 1948 Kopp was employed by a wood firm in the French zone of America; . . . had official residence and travel permits, claimed to be working with an American captain in Innsbruck, Austria, allegedly as a recruited for stay-behind work.
3. In view both of the name Goldschmidt, and of the mention in FOIA-7024 of Kopp's connection with a wood firm, perhaps you wish to note in REL-15308 that a railroad car building factory in Bonn "in dependent upon delivery of hard wood from Western Germany" and "received shipments of hard wood from Western Germany, including one of 30 tons and one of 40 tons in June 1951. Part of the deliveries were made from Kassel and Martin Biberich through Goldschmidt Richard Kopp".
